

Custom Keying Options

Custom keying, charting and engraving of padlocks is also available from Brady. We have many keying options available including tens of thousands of genuine 'key to differ' options and the ability to key alike, master keying and grand master keying. Brady guarantees quality products, a secure key register and quick turnaround time. Use Brady's custom order form available for download from <http://www.bradyaust.com.au> and send to your local Brady Distributor for a prompt quote.

BRADY PADLOCK KEYING OPTIONS

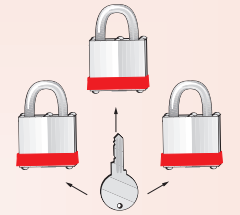

Keyed Differently

Each lock in a keyed differently system has its own unique key. Guaranteed no duplicates, must be specially requested. See below if a master key is needed.

Keyed-Alike Systems

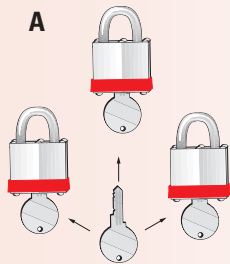

All locks in a keyed-alike system use identical keys. Any lock's key can open all the locks within the group.

Master Keyed Systems

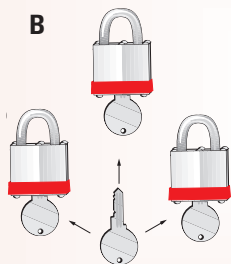

A master key opens all locks in the system, even though each lock has its own individual key. This system permits organising submaster, master and grandmaster systems along departmental or other functional lines. Master keys can also be made to fit multiple groups of Keyed-Alike locks. For even greater convenience all custom keying requirements for Brady Lockout Padlocks are keyed locally for faster delivery time.

Individually Keyed

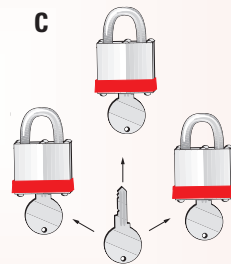

Submaster Key "A"
(Open only locks in group "A")

Individually Keyed

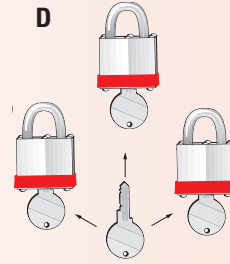

Submaster Key "B"
(Open only locks in group "B")

Individually Keyed

Submaster Key "C"
(Open only locks in group "C")

Individually Keyed

Submaster Key "D"
(Open only locks in group "D")

Master Key "ABC"
(Only opens locks in groups "ABC")

Master Key "D"
(Only opens locks in group "D")

GRAND-MASTER KEY
(OPENS ALL LOCKS THROUGHOUT SYSTEM)

Master-Keyed Systems

- Supervisory master key opens all locks in system
- Each padlock also opens with a separate individual key
- Allows for organising of Grandmaster, Master and Submaster systems.

Extra keys also available for Brady Padlocks. Contact your local Brady Distributor.

LOCK LUBRICANT SPRAY

Use this lock lubricant spray to keep your padlocks in top working condition and to ensure your padlocks are maintained for longer term use. Simply spray into the barrel of locks to remove any dust and debris, and to free up moving parts. This unique dry film lubricant can improve the life of your padlocks. Especially useful in harsh environments such as mine sites.
